NATURAL HAZARDS AND DISASTER MANAGEMENT

NATURAL HAZARDS AND DISASTER MANAGEMENT

www.ishad.info

ISHAD is a multidisciplinary international symposium

devoted to the presentation, discussion and publication

of scientific studies and original researches on disaster

science and engineering. ISHAD associates different scientific fields with operational disciplines to contribute

to the mitigation of disasters throughout of the world. ISHAD serves to a wide community of research scientists

and decision makers concerned with disasters detection,

The objective of the symposium is mainly to create an atmosphere for the academicians and professionals

world-wide to share and discuss the holistic methods of

the current interdisciplinary scientific activities so that a

strong cooperation among the universities, scientists

and professional operators is achieved on international

level as far as natural hazards and disaster management
