Bio-based Solutions for Improved Acoustic Implications

WORKSHOP

bio-acouis

Environmentally Friendly Acoustic Materials: Design, Performance and Industrial Transformation

April

16-17, 2026

10.00 AM - 17.00 PM

Necmettin Erbakan University,
Fine Arts & Architecture Faculty
Meram/KONYA - Konference Hall

The workshop is designed to facilitate the sharing of best practices in specific areas such as new eco-materials, acoustic performance, and ergonomic design with the aim of providing with a better understanding of current approaches.
