

ICEFC 2022

3rd INTERNATIONAL CONFERENCE ON ENVIRONMENT AND FOREST CONSERVATION

February 21-23, 2022

Kastamonu University, Kastamonu City, Turkey

Environment and Forest Conservation Towards a Resilient and Sustainable Ecosystem in the Post Covid-19 Pandemic Era

PROF. DR. RAHMI ER

Vice President
Council of Higher Education
Turkey

DR. ALDRIN A. DARILAG

Commissioner
Commission on Higher Education
Philippines

KEYNOTE SPEAKERS

DR. ZULHAMSYAH IMRAN

Director
SEAMEO BIOTROP
Bogor, Indonesia

PROF. DR. ANI MARDIASTUTI

Professor, Faculty of Forestry
IPB, Indonesia

PROF. DR. FEMABAMO

Professor, College of Natural Sciences
MSU, Philippines

Background

The ICEFC is a collaborative international conference of the Kastamonu University (KU), Mindanao State University (MSU), Bogor Agricultural University (IPB), and Southeast Asian Regional Center for Tropical Biology (SEAMEO BIOTROP). The first and second conferences were held in the Philippines and Indonesia, respectively. The conference seeks to advance the multi-disciplinary critical discussion around a broad range of forestry and other environmental issues at the global, national, regional and local levels to promote a sustainable world, particularly in the post COVID-19 pandemic period. It offers a platform for academicians, scientists, and scholars around the world, to share research outputs, knowledge products, technology and innovations in the fields of forestry, environmental sciences, and other related fields

CALL FOR ABSTRACT:

The ABSTRACT should contain the Title, Author list, Affiliations, and Keywords and total length should not exceed 250 words

DEADLINE: DECEMBER 15, 2021

FULL PAPER SUBMISSION: JANUARY 20, 2022

1

Eco-Governance & Social Forestry

- Forest Laws and Policies
- Forest Certification System
- International Forestry Policies
- Payment of Ecosystem Services
- Forest Economic Valuation

2

Climate Change & Disaster

- Carbon Sequestration, Carbon Emission and Accounting
- Invasive and Alien Species
- Forest Fires
- Floods and Flooding

3

Biomass Energy

- Biomass Energy Production System
- Wood Science and Wood-Based Industries
- Biomass Demands, Markets and Supply
- Short Rotation Forestry
- Biofuels and Other Non-Woody Biomass Products

4

Ecosystem Conservation & Management

- Geology, Soil and Water Resource Management
- Biodiversity Conservation and Management
- Forest Health
- Ecosystem Restoration and Rehabilitation
- Wetland Forest Ecosystems

5

Forest Environmental Innovative Technology

- Non-Wood and Other Forest Product
- Environmental Computing
- Wood Technology
- Eco Tourism
- Climate Change Adaptation and Mitigation Technology
- Biomass Energy Products and Conversion Technology
